

Ashish Chandra, Ph.D.

Assistant Professor

Department of Management and Quantitative Methods

College of Business, Illinois State University

achand6@ilstu.edu | +1 309-438-3022 | [Faculty Webpage](#) | [Google Scholar](#)

ACADEMIC APPOINTMENT

Assistant Professor - Management & Quantitative Methods

Aug 2022 – Present

[College of Business, Illinois State University](#), Normal, USA

EDUCATION

Ph.D.	Purdue University, Krannert School of Management Now: Mitch Daniels School of Business Ph.D. in Management: Specialization in Quantitative Methods Minor in Electrical & Computer Engineering Title: Techniques for Uncertainty Quantification, Risk Minimization, with Applications to Risk-Averse Decision Making Advisor: Mohit Tawarmalani	July 2022
M.S.	Indian Institute of Technology Bombay (IIT Bombay) Department of Industrial Engineering and Operations Research Master of Science in Operations Research Title: Systemic Risk in Financial Networks Advisor: Veeraruna Kavitha	Dec 2015
B.S.	University of Mumbai - DAE Centre for Excellence in Basic Sciences Bachelor of Science in Mathematics	July 2013

RESEARCH INTEREST

- Interests:** Network/System Reliability and Resilience, Robust Network Design, Transportation and Mobility Systems, Supply Chain Network Optimization, Healthcare and Pharmaceutical Supply Chains, Risk Modeling, Uncertainty Quantification, Financial Networks and Systemic Risk.
- Methodologies:** Mathematical Programming, Robust and Stochastic Optimization, Chance-Constrained Optimization, Integer and Nonlinear Optimization, Decomposition and Relaxation Methods, Dynamic Programming, Applied Probability, Statistics, and Prescriptive Analytics.

TEACHING INTERESTS

Operations Management, Management Science, Business Decision Making and Decision Analysis, Business Analytics and Quantitative Analysis, Applied Probability and Statistics, Deterministic and Stochastic Operations Research, Mathematical Programming, Convex Optimization, Optimization under Uncertainty, and Supply Chain and Service Operations.

JOURNAL PUBLICATIONS

- **Ashish Chandra** and Jong Gwang Kim. “Reliability Certification of Supply Chain Networks under Uncertain Failures and Demand.” *Annals of Operations Research*, vol. 361, pp. 1151–1181, 2026. [\[DOI\]](#)
- **Ashish Chandra** and Mohit Tawarmalani. “Probability Estimation via Policy Restrictions, Convexification, and Approximate Sampling.” *Mathematical Programming*, vol. 196, pp. 309–345, 2022. [\[DOI\]](#)
- Yiyang Chang, Chuan Jiang, **Ashish Chandra**, Sanjay Rao, and Mohit Tawarmalani. “Lancet: Better Network Resilience by Designing for Pruned Failure Sets.” *Proceedings of the ACM on Measurement and Analysis of Computing Systems*, vol. 3, no. 3, pp. 1–26, 2019. [\[DOI\]](#)

REVISE AND RESUBMIT

- **Ashish Chandra**. “An Optimization-Based Counting of Performance-Critical Disruption Scenarios in Supply Chain Networks.” *Operations Research Letters. Revise and Resubmit*.
- **Ashish Chandra**. “Validating Worst-Case System Performance under Multi-State System Disruptions: Evidence from Supply Chain Networks.” *Operations Research Forum. Revise and Resubmit*.

 - Krannert Doctoral Research Symposium 2019, 2020 & 2021
 - INFORMS Optimization Society Conference 2020 - Postponed due to Covid-19
 - CRM/DIMACS Workshop on Mixed-Integer Nonlinear Programming 2019
- **Y. Chang, C. Jiang, A. Chandra, S. Rao, and M. Tawarmalani**, “Lancet: Better Network Resilience by Designing for Pruned Failure Sets”. (Krannert Doctoral Research Symposium 2017, 2018)
- **Session Chair**
 - “Sustainability, Green Systems and Energy” - 11th North American Conference on IEOM 2026.
 - “Innovative Teaching, Curriculum Development, and Pedagogy” - MidWest DSI Annual Meeting 2026.
 - “Supply Chain Resilience and Sustainability” - MidWest DSI Annual Meeting 2025.
 - “Supply Chain Management” - IISE Annual Conference and Expo 2024.
 - “SUPPLY-CHAIN RISK and RESILIENCY: Supply Chain Risk Mitigation” - DSI Annual Meeting 2023.
 - “Machine Learning and Optimization Applications” - INFORMS Annual Meeting 2023.
 - “Teaching and Learning Symposium - 2023”, Illinois State University.
 - “Optimization techniques for decision making under risk” - INFORMS Annual Meeting 2022.
 - “Nonlinear Optimization Techniques in Stochastic Optimization”- INFORMS Annual Meeting 2021.

RESEARCH GRANTS AND SPONSORED PROJECTS

- **PharmaShield: A Risk-Aware System for Resilient & Equitable Pharmacy Supply Connected Communities Initiative (CCI) - Spring 2026 Award**
Funding Partnership: Illinois State University and OSF HealthCare

Role: Principal Investigator
Award: \$74,909.80
Project Period: July 2026 - June 2027

Research: Leading an interdisciplinary collaboration with pharmacy leadership, clinicians, and operational stakeholders at OSF HealthCare in Peoria to develop and pilot a data-driven, risk-aware decision-support framework for resilient pharmacy supply operations. The project integrates demand and supply-risk analytics, stochastic optimization, 340B-sensitive prioritization, and clinician-informed validation to translate quantitative models into implementable inventory, allocation, and redistribution strategies for improving medication access and system resilience.

- **University Research Grant (URG) Program** \$14,000 total
 Illinois State University **Principal Investigator**
Three consecutive competitive awards: 2025 - 2026 (\$5,000), 2024 - 2025 (\$5,000), 2023 - 2024 (\$4,000).

Research: Supported a multi-year research program on optimization under uncertainty, network reliability and resilience, and supply chain and service network optimization, including the development of robust optimization models and methods for performance validation, disruption analysis, and risk-aware decision making.

Teaching and Instructional Grants

- Instructional Innovation Grant** \$500, (2025 - 2026)
Illinois State University **Principal Investigator**
Project: “Immersive Simulations for Inclusive Decision-Making: Bridging Theory and Practice Through Data-Driven Case Studies.”
Teaching Innovation: Supported the design and implementation of immersive, data-driven business simulations that engage students in applying quantitative concepts to realistic decision problems. The simulations integrate structured analysis, iterative decision making, and reflection to strengthen students’ ability to translate theory into practice while promoting active and inclusive participation in operations and analytics courses.
- Scholarship of Teaching and Learning (SoTL) Travel Grant** \$750, (2025 - 2026)
Illinois State University **Principal Investigator**
Project: “Immersive Simulations for Inclusive Decision-Making: A Statistical Evaluation of Equity-Centered Pedagogy.”
SoTL Research: Supported the dissemination of an empirical study evaluating how immersive, data-driven simulations influence student learning, engagement, and equity outcomes in quantitative business courses. The research examines conceptual learning gains, applied decision-making performance, and differences in learning outcomes across student groups, and was presented at the 2026 Midwest Decision Sciences Institute Annual Conference.

TEACHING EXPERIENCE

- Illinois State University** **Assistant Professor / Instructor of Record**
College of Business Aug 2022 - Present
Student evaluation scale: 1 = highest; 5 = lowest.
MGT 100 – Statistical Reasoning **Typical class size: 40 - 50**
Student evaluations: Fall 2022 (1.28); Spring 2023 (1.12); Fall 2023 (1.54); Summer 2024 (1.56); Summer 2025 (1.70); Summer 2026 (1.57).
Teaching Focus: Statistical reasoning and data-informed decision making, emphasizing interpretation of quantitative evidence, probability and statistical concepts, and their application to business problems.
- MGT 227 – Operations Management** **Typical class size: 80 - 98**
Student evaluations: Spring 2023 (2.24); Fall 2023 (1.65); Spring 2024 (1.38); Fall 2024 (1.66); Spring 2025 (1.94); Fall 2025 (1.47); Winter 2025 (1.32); Spring 2026 (1.86).
Teaching Focus: Core undergraduate operations management covering process analysis, capacity and bottleneck management, forecasting, inventory, supply chain decisions, and quantitative approaches to operational decision making.
- MBA 416 – Applied Tools for Business Decision Making** **Typical class size: 35 - 40**
Student evaluations: Spring 2024 (1.21); Fall 2024 (1.12); Spring 2025 (1.06); Fall 2025 (1.25); Spring 2026 (1.11).
Currently teaching: Fall 2026.
Teaching Focus: Graduate-level application of management science and quantitative decision-making tools, including decision modeling, optimization, analytical problem solving, and interpretation of model-based recommendations for managerial decisions.
- Purdue University - Krannert School of Management** 2016 - 2021

Instructor of Record

Summer 2019

MGMT 305 - Business Statistics

Core undergraduate course for the B.S. in Business Analytics and Information Management.

Teaching Focus: Delivered an intensive undergraduate course in business statistics, combining statistical concepts with applied business problem solving and data analysis. Instruction included probability and statistical inference, interpretation of quantitative results, and hands-on applications using Minitab.

Teaching Recognition: Krannert Certificate for Distinguished Teaching.

Teaching Assistant

2016 - 2021

MGMT 670 - Business Analytics

Spring 2021, Fall 2021

Core graduate course for the M.S. in Business Analytics and Information Management.

Teaching Role: Conducted weekly tutorial sessions and supported students in graduate-level business analytics and quantitative problem solving; evaluated homework and other course assignments.

MGMT 306 - Management Science

Fall 2016 - Spring 2018

Core undergraduate course for the B.S. in Business Analytics and Information Management.

Teaching Role: Delivered weekly recitation lectures and tutorial sessions, developed assessment materials, and provided instruction in quantitative decision modeling, optimization, and simulation using Microsoft Excel.

MGMT 305 - Business Statistics

Fall 2018

Undergraduate course in business statistics.

Teaching Role: Delivered weekly recitation lectures and tutorial sessions supporting students in probability, statistical analysis, and the interpretation of quantitative results in business applications.

- **Indian Institute of Technology Bombay (IIT Bombay)**
Department of Industrial Engineering and Operations Research

Teaching Assistant
Spring 2016

IE 611 – Introduction to Stochastic Models

Teaching Role: Supported graduate-level instruction in stochastic modeling through the design and evaluation of homework assignments and examinations.

FACULTY DEVELOPMENT AND PEDAGOGICAL LEADERSHIP

- **Center for Integrated Professional Development (CIPD) Faculty Fellow** 2026
CIPD, Illinois State University
Faculty Workshop: “Designing for Decisions: Integrating Visual Design and Data-Driven Pedagogy for Inclusive Learning.”
Role: Selected with Anmol Shrivastava (Wonsook Kim College of Fine Arts) to develop and deliver a faculty-development workshop integrating quantitative decision making, visual communication, and inclusive pedagogy. The workshop provides faculty with interdisciplinary strategies for designing learning experiences that strengthen students’ interpretation of information, decision making, and communication.
- **Selected Faculty Development, Summer Institute, and Teaching Programs** 2023–2025
Center for Integrated Professional Development, Illinois State University
Completed sustained faculty development in evidence-based course design, inclusive and equitable pedagogy, online and hybrid instruction, assessment, classroom engagement, and responsible use of generative AI in teaching. Selected activities include:
 - **Course Design and Online Learning:** Course Design for Early Career Faculty; Designing Your Online Course; Improve Your Online Course; and Building Regular and Substantive Interaction into Online Courses.
 - **Inclusive Teaching and Assessment:** Equitable Assessment Practices in Canvas; Build Confidence in Creating Inclusive Course Materials; and Indigenous Illinois 101: Making ISU’s Land Acknowledgment into Pedagogy and Practice.

- **Classroom Engagement and Emerging Technologies:** Facilitating Difficult Conversations and Managing “Hot Moments” and Disruptive Behaviors in the Classroom; and GenAI and Academic Integrity.
- **Teaching and Learning Symposium:** Participated in the 2023 Teaching & Learning Symposium on Belongingness and served as a session chair.

HONORS AND AWARDS

- **First Place, Supply Chain and Logistics Competition**
7th European Conference on Industrial Engineering and Operations Management, Germany Jul 2024
- **Purdue Graduate Student Travel Grant**, Purdue University 2020, 2022
- **Givens Associate Fellowship**, Argonne National Laboratory, Illinois, USA Jun - Aug 2021
- **Best Paper Runner-Up, Krannert Doctoral Research Symposium**, Purdue University 2020, 2021
- **Krannert Certificate for Distinguished Teaching**, Purdue University Summer 2019
- **Charpak Research Scholarship**, French Government May - Jul 2015
- **Summer Research Fellowship**
National Program on Differential Equations – Theory, Computation & Applications, India May - Jun 2013
- **Summer Research Fellowship**, Indian Academy of Sciences, India May - Jun 2012
- **Innovation in Science Pursuit for Inspired Research (INSPIRE) Fellowship**
Government of India 2010 - 2013

ACADEMIC AND PROFESSIONAL SERVICE

- **Editorial Service**
Guest Editor, OPSEARCH, Special Issue on “Advances in Optimization and Operations Research: Theory, Computation, and Applications”. Co-Guest Editors: Prashant Palkar (IIT Delhi) and Guglielmo D’Amico (University of Chieti–Pescara); special issue associated with **ICORSI 2026**.
- **Journal Peer Review**
Reviewer, Mathematical Programming Computation 2024, 2025
Reviewer, MDPI Journals: Sustainability, Logistics, and Risks.
- **Conference Leadership and Service**
Track Chair, “Supply Chain Management & Logistics,” Midwest Decision Sciences Institute (DSI) Conference 2024
Session Chair
“Sustainability, Green Systems and Energy” – 11th North American Conference on IEOM 2026
“Innovative Teaching, Curriculum Development, and Pedagogy” – Midwest DSI Annual Meeting 2026
“Supply Chain Resilience and Sustainability” – Midwest DSI Annual Meeting 2025
“Supply Chain Management” – IISE Annual Conference and Expo 2024
“Supply Chain Risk and Resiliency: Supply Chain Risk Mitigation” - DSI Annual Meeting 2023
“Machine Learning and Optimization Applications” – INFORMS Annual Meeting 2023
“Teaching and Learning Symposium – 2023”, Illinois State University 2023
“Optimization Techniques for Decision Making under Risk” – INFORMS Annual Meeting 2022
“Nonlinear Optimization Techniques in Stochastic Optimization” - INFORMS Annual Meeting 2021
- **Conference Peer Review**
Reviewer, Academy of Management Annual Conference 2024, 2025

Reviewer, "Supply Chain Resilience and Sustainability," Midwest DSI Annual Conference	2025
Reviewer, IISE Annual Conference	2024

• University, College, and Department Service

University Service

Member, University Continuity Committee, Illinois State University 2025 - 2027

Contribute to university-level planning and discussions related to institutional continuity, operational preparedness, and the maintenance of essential academic and administrative functions during disruptions.

College of Business Service

Member, College of Business Technology Team, Illinois State University 2026 - 2027

Contribute to college-level discussions and recommendations concerning instructional and academic technology, technology needs and resources, and the effective use of technology to support teaching, research, and faculty activities.

Assurance of Learning (AoL) Contributor, College of Business, Illinois State University

2025 - Present

Contribute to AACSB - aligned Assurance of Learning assessment across MGT 100 (Statistical Reasoning), MGT 227 (Operations Management), and MBA 416 (Applied Tools for Business Decision Making), including assessment of student learning outcomes and use of assessment evidence to support continuous improvement of undergraduate and graduate business curricula.

PROGRAMMING & SOFTWARE SKILLS

- Programming: Python (proficient), Matlab, C/C++
- Optimization Software: Gurobi, AMPL, GAMS, CPLEX, MOSEK
- Statistics: Minitab, Matlab, R, Mathematica
- Database: SQL, MySQL
- Machine Learning: Tensorflow, Keras
- Others: AnyLogic, Optimization Modeling - Risk analysis & Simulation in Microsoft Excel

RESEARCH EXPERIENCE

- **Givens Associate, [Mathematics and Computer Science Division](#)** Jun - Aug 2021
[Argonne National Laboratory](#), Lemont, Illinois, USA
Research Project: "Importance Sampling for Probabilistic Certification of Network Performances."
Developed importance-sampling approaches for efficient estimation of rare-event probabilities arising in network performance and reliability certification.
Research Mentors: [Anirudh Subramanyam](#) and [Vishwas Rao](#).
- **Research Assistant, [Department of IEOR](#)** Jan - May 2016
Indian Institute of Technology Bombay (IIT Bombay), Mumbai, India
Research Project: "Brownian Motion on One-Dimensional Grid with Random Deletions."
Conducted research on stochastic processes and random network structures, with emphasis on Brownian-motion behavior in networks subject to random deletions.
Research Supervisor: [Veeraruna Kavitha](#).
- **Summer Research Intern** May - Jul 2015
[French Institute for Research in Computer Science and Automation \(INRIA\)](#), Sophia Antipolis, France
Research Project: "Random Walks with Restarts and Applications in Nonconvex Optimization."
Investigated random-walk-with-restart methods and their applications to nonconvex optimization problems.

Research Mentor: [Konstantin Avrachenkov](#).

- **Summer Research Intern, [Department of IEOR](#)** May - Jul 2013
Indian Institute of Technology Bombay (IIT Bombay), Mumbai, India
Research Project: “Nash Equilibrium in Distributed Systems and Applications in Road Traffic.”
Studied game-theoretic equilibrium models for distributed systems and their applications to transportation and road-traffic networks.
Research Mentor: [K. S. Mallikarjuna Rao](#).
- **Summer Research Intern, [Department of Mathematics](#)** May - Jul 2012
Indian Institute of Science (IISc), Bengaluru, India
Research Project: “Random Walks and Electric Networks.”
Studied connections between random walks, probability theory, and electrical-network representations.
Research Mentor: [Manjunath Krishnapur](#).

STUDENT MENTORING AND ADVISING

- **Graduate Research Mentoring - [Pharmaceutical Supply Chain Analytics](#)** 2026–2027
College of Business, Illinois State University
Student: _____ (*to be appointed*)
Sponsored Research Project: “PharmaShield: A risk-aware system for pharmacy supply chain.”
Planned Mentoring: Will supervise the student in constructing medication-level analytical datasets from pharmacy demand, inventory, procurement, and supply records; estimating demand variability and shortage/disruption risk; and developing medication risk classifications. The student will support the implementation and computational evaluation of quantitative models for inventory, allocation, and redistribution decisions under uncertainty, and will assist in translating model outputs into decision-support recommendations for validation with OSF HealthCare pharmacy and clinical stakeholders. .
- **Graduate Student Mentoring** 2025–2026
College of Business, Illinois State University
Student: [Matilda Achaab](#), MBA Student and Graduate Teaching Assistant
Teaching Innovation Project: “Immersive Simulations for Inclusive Decision-Making: Bridging Theory and Practice Through Data-Driven Case Studies.”
Mentoring: Mentored Matilda in the development and implementation of simulation-based case activities for MBA 416 as part of the funded teaching-innovation project. Supervised her contributions to preparing case materials, supporting classroom implementation, and reviewing student responses. Used observations from the implementation and student work to guide revisions to the cases and supporting instructional materials.
- **Graduate Student Mentoring** 2024–2025
College of Business, Illinois State University
Student: [Obed Asare](#), MBA Student and Teaching Assistant
Applied Analytics Project: “Capacity and Resource-Allocation Decision Modeling under Demand Uncertainty.”
Mentoring: Provided year-long faculty mentoring in the formulation and analysis of an MBA-level managerial decision problem involving demand uncertainty, capacity constraints, and resource-allocation tradeoffs. Guided the development of spreadsheet-based quantitative models, scenario analysis, interpretation of model outputs, and translation of analytical results into managerially actionable recommendations.
- **Student Companion Program** Aug 2014–Apr 2015
Indian Institute of Technology Bombay (IIT Bombay)
Mentoring: Mentored five first-year master’s students during their transition to graduate study, providing guidance on academic adjustment, university resources, campus life, and broader professional and personal development.
- **Student Mentorship Program** Aug 2012–Apr 2013
University of Mumbai

Mentoring: Mentored first-year undergraduate students from diverse socioeconomic backgrounds, providing academic guidance and supporting their transition and adjustment to university-level study.

CERTIFICATION & PROFESSIONAL MEMBERSHIPS

- **Coursera Certifications:**

- Data Science Specialization**, a 4-course specialization by IBM on Coursera.

- Deep Learning Specialization**, a 5-course specialization by DeepLearning.AI on Coursera.

- **Professional Memberships:**

- Institute for Operations Research and the Management Sciences (INFORMS)

- Decision Sciences Institute (DSI)

- Institute of Industrial and Systems Engineers (IISE)

- Society for Industrial and Applied Mathematics (SIAM)

NON-ACADEMIC INTERESTS

Cricket - Purdue Cricket Club, Marathon running, SKY Purdue - Yoga & Meditation.
